Your program allows me to make webpages in a matter of minutes. I have a basic understanding of programming and can make minor modifications, insert snippets into the head/body, and so on. In particular, I liked the way you can switch the views from mobile to tablet and then desktop. Nonetheless, the breadth of responsive web creation has been weighing on my mind of late; while I can & do create responsive websites, it is considerably more effort; however, I like the aesthetic of dedicated pages since mobile-friendly tends to be rather basic & uniform. I tried Wix for a client of mine a few years ago, it was not user friendly and it costs way too much for what you get. You guys deserve a GREAT JOB! Award. "Grandiose!!!! I was looking for a tool that would allow me to develop lightweight (which led me to bootstrap) and also elegant websites. Thank you very much!" Jeffrey G. It's a great option for web designers who are limited on time and working on projects for small clientele." Suffian A. "I canéÁÁAt thank you guys enough for releasing this, not only is it a super idea, it also was implemented properly. I tried Coffee Cup site designer and a couple of others I cannot remember their names, but their interface was somewhat confusingéÁÁ¡Á If I install a program and cannot figure out the basics in the first half an hour, I have no use for it. Kudos on your efforts." Rajat Sh. "Whoa! I mean WHOA. It was very difficult and that's why I looked for alternatives. Still use a lot of html with your website builder software but mostly embedding code so not as much time involved." Julie C. " David F. Never. Concrete5, OK but not as good as Mobirise. I'm blown away. "I'm at a loss for words... We needed to have an appealing website up and running quickly. But I know that having a mobile would would be a fantastic thing to have if I have clients that want it. I'll use this HTML builder tool for much larger projects if you offer me greater control over the CSS settings. Loading PreviewSorry, preview is currently unavailable. I did their site with Mobirise web software, so much easier and nicer, Wixs sites look the same unless you want to invest a lot of time and modifying. It is truly easy to use and striking. More prebuilt components for dragging and dropping into web sites will assist expansion." Jack "IéÁÁÁm sure the world of Web development is getting much easier but it's also making it so much harder for people líke me to find a job because lots of people would like to use out-of-the-box responsive layout websites that are easy to create and start. "I wanted a quicker way to build a nice website, the cms I was using needed a lot of modifying on the themes and I had to use html & css to change anything, we all know how long it can take to get something to look the way you want when you are hand coding. I watched the tutorials and looked at the example templates and was really impressed with what I saw. So simple and a pleasure to use. " As someone who transitioned from graphic design to web design, I like to work visually and using WYSIWYG tools. I am elderly and without any IT experience. I try to keep my mind busy with this toy you gave me for free. With more block features, increased flexibility, Mobirise Website Maker would favorably beat the top free website software - squarespace, wix, weebly, godaddy and probably - wordpress! I'll stick to you all the way. Continue on-" Ravindra D. If you add additional features without sacrificing simplicity, I am confident that you will be at the top of the web building software industry! Many features, as well as ease of use, are what make tools like this the finest. I like this tool, however because of the simplistic designs, it appears incapable of designing Lamina rof Setisbew eerf od i „ssenusub ysub ysub ym gnifepo fo esruo eht no os dna „stneve „sdoog „secivres „saedi or rof sigsab ssib ragaluner that if setisbew orcim dna ecstagaf sussatnaf. „Redliub Etisbew elpmis Siht rof resu tcerep yleredolsba ma i i):- !sruoY f tcudorp htw emit taerg a gnivah m'i „sreckow laitdart-non rehto dna „c - sresu you dna dna eram steg tcudorp eht áĉáĉá DERIUQER GNIDOC on áĉáĉáĉĈTO tpecnoc eroc shit Gniinifer teek Emit hcum woh etaicerrpa nac i dna „egde-gnittutoc dna evitnevni ylhgiH Eb ot ot ot ot ot ot ot ot ot oreppa eht „this tsrif ta" „agaet gnidiub bew eht ot otset áĉĀi „u smonihc "„oot „gmsnopser evah evah taht Setisbew euqinu dna gnikool elpmis eparenene nac taht eruta EF PORD DNA GARD A GOHS of the hguoht taerg etiuq edliub etisbew eht „e eldengom derevocis I ebutuos if soediv dna elgoog hguorht „dezimitpo-egum esbeh etis suoh blaow blatfo suoh blast rof roas rof eer „Elbailer dna elbats sleef dna „tcejorp lufrednengnow htiw yaw eht ilo htiw htiw oláĉáĉéĈĈ „S Buonaba" SKCOLB GIB EHT ROF SKNAH ynam „C namlalah "„sdrager „boj Doog eht pu opek „em rof retteb dna rekciuq yirim yiribimo tub of devoli „lorpsme „oot „ „ bew Inerruc ni redliub partstoohsarf dna pord-dna-gard elpmis htiw ecneirepxe IU gniirpsni-ewa dna troffe taerG „detsixe reven sah erawtfos taht esuaceb detatsurf neeb evah srehto fo snoilim dna I „5991 ecnis „dna " „repoleved" a fo ecnatsissa eht tuohtiw siht FO II Ila Ilaifrep ot dedeen ew „setesbew „setesbew „syad „„syad suoiroig esoit was fo rebmemer nac I Ila won „werdhtiw yllautneve aidomorca M hcihw,redliub egap LMTH mhtyHt eht ot no gniwom erofob sehaorppa ngised bew parcs tenilitu I dna„ecneirepxe fo sraey 02 revo htiw repoleved beW lanoisseforp a m'I "¡ĉitsatnaf s'ti „setunim ni etisbew cisab a ro egap gnidnal gnizama na etaerc won nac I „9991 ecnis setisbew no gnikrow retfa I hcum woh uoy Ilet ot detnaw I'm ecna L "¡uoy knaht I !levitiutni - ylnatropmi the dna elpmis the yllautca si taht nees reve evah I erawtfos redliub bew evisnopser tsrif eht si esiriboM ruoY „..ti evah Iliw srepoleved bew fo tol a erus m'I „era snoitcnuf pord dna gard raelc dna ysae woh yojne yllaer I „TSAF etisbew a reviled ot liaf srotitepmoc ruoy Ila kniht I „erawtfos redliub etisbew tseb yrev eht dna tnellexce dna elpmis diputS „margorp cifirret siht gniisu setunim fo elpuoc a ni setisbew etaerc ot si ti ysae woh eroda I „citsatnaf eb dluow rotaerc etisbew eerf ruoy no snigulp ero M „krow hcum oot XDOM „sraey wef a neeb s'ti tub detacilpmoc oot „almoof deirt evaH „setis relpmis rof smc xelpmoc a hcus esu ot lufetsaw tib a ti dnuof dna dnuof I semeht sserpdrow eht ekil t'ndid I „laitnetop taerg sah tcudorp ruo Y „elbissop si taht esiribo M htiw „etis evitcaretni ecin a etaerc ot yaw rekciuq a dnif ot dah I „etis a gnideen suacser morf stseuqer fo tol a gnitteg detrats I nehw tub nuf saw ti oga sraey ynam revo detrats tsrif I nehw„emit sekat htarcs morf etis a gnidoc dnaH „taht dah yllaer srotitepmoc ruoy fo enon „rof gnikool ma I tahw era esae dna deepS „pleh nac I rekciuq eht
