Detail row template — The grid detail row template allows you to provide more details about a particular row of data in the table by expanding or collapsing its contents. (' {} {Title}) [Error ->] I chose the guide at http: //www.telerik. com / kendo-angular-ui / get-started / # install to install Kendo-Angular-UI. Is there anything like the systajs.config where should I include the kendo-grid-package? Filtering - including additional cell customization options . If 'Kunden-Grid' A an angular component, verify that it is part of this module. Grouping - outside the box, A you can apply dynamic grouping to data grid records, set grouping from aggregated values and, in the same way as functionality - sorting, pre-group data. CiA results in an angular data grid that offers fast lighting performance and highly customizable A . I want to use kendo-grid at Angular4, but I keep getting this error: Undetected error: model anti-freeze errors: 'Kunden-Grid' is not a known item: 1. Main features among the many features that the Kendo UI for the angular grid delivers A : modification - Depga NDING on user requirements, A mode can be chosen in-cell or in-line editing, provide editing from an external shape or from reactive or template-shaped shapes, and also further customize the grid. The A grid is accessible from screen readers and provides support Support options for any problems you might meet while working with the Kendo UI for the angular grid, the following support channels is available: Resources Copyright © 2022 Progress Software Corporation Corporation One of his subsidiaries or affiliates. Export to PDF and Excelquando Implement the grid export to PDF, you can set the fonts, the exact part and the layout of the exported content, customize the columns and other output result specifications. When exporting to Excel, you can export specific data and customize the exported columns. Columns.
