Spring song       "122 minutes Information about Fate Anime Series The list of UNLIMITED BLADE WORKS fillets has been a series that has worked from 2014 to 2015. A total of 26 episodes of the Fate / Stay Night fillers have been published [Unlimited Blade Works]. History focuses on Shirou Emiya. He unintentionally joined the fifth version of a real fight to death called the War of the Holy Grail. Shirou was captured by a retired magician named Kiritugu Emiya. He died a few years later. He intended to help others. He sincerely trained his body. He also had a negligible potential with the bon  . But people sometimes abused him kindness. Shirou suddenly meets two warriors a night. Last words now that you have the chronological order to look at do, enjoy the anime. If you feel that the order needs some updates, let us know in the comments section. Why settle for stories with ancient heroes when magicians can evoke these warriors to fight for them? The Type-Moon's franchise does combine noble warriors, historical figures and mythological beings. Furthermore, the premise of him requires them to duce him in a battle royal that rewards one desire to the winner. Originally only the visual novel night Fate / Stay, the franchise made evolved its history through more VN, light novels, and even anime and film. Of course, having this very material to see can do any newcomer feel overwhelmed with the fairy franchise. Fortunately, following a specific order can help spectators feel more aware with fairies and the machinations of his Grail War. 10 FAI / STAY NIGHT (Anime, 2006) This adaptation Anime stars Shirou Emiya, the only survivor of an accident that swallowed an area at Fuyuki City in flames. A decade later, Shirou takes place during the day with school tasks and some odd work. Meanwhile, he secretly practices the basic magic taught by his deceased father adoptive, Kiritugu. Despite the ordinary nature of him, Shirou aspires to live with the code of the adoptive father: to become a hero of justice. Unfortunately, a series of events Shirou to the Grail War. Being a 2006 adaptation, fans should treat only the Fate/stay night as a basic introduction to the franchise. Moreover, since the anime tries to incorporate all three routes into the VN, it is is a little mess. However, fans should strictly consider this anime of 2006 as an interpretation of the   Write of Fate  , focusing on Shirou's relationship with Saber. 9 Fate/Stay Night: Unlimited Blade Works (Anime, 2014) At first glance, Unlimited Blade Works seems to copy the first episodes of the original adaptation of Fate/stay night. However, things begin to change when Shirou Emiya and Rin Tohsaka are forced to collaborate for their survival. This time, Shirou begins to have an increasing friendship with the most experienced Tohsaka Magi. At the same time, Shirou explores his immense aversion to his Servant, the mysterious Archer. This adaptation is released from the United Nations' "Write of Destiny" and takes its "Unlimited Work Rut", where Rin becomes the protagonist of Shirou. 8 Fate/Stay Night: Heaven's Feel I to III (Movies, 2017, 2019, 2020) Once again, as with Fate/stay night and UBW, the film trilogy Heaven's Feelou seems to copy the first days of The War. This time, however, Shirou becomes much closer to his childhood friend Sakura Matou. Sakura has a mysterious past linked not only to the Holy Grail war as a whole, but also to the entity that began to kill the war participants. As in the case of UBW, Heaven's Feel films explore the VN's main road, where Sakura becomes the protagonist of Shirou. Fans would appreciate Heaven's Feel as it further expanded the personality of the characters in the previous series. In addition, the focus on Sakura has contributed a lot to building it as a solid deuteragonist in films. 7 Fate/Zero (Anime, 2011) Fate/Zero takes place once again in the city of Fuyuki, a decade before the events of Fate/stay night. As this setting suggests, Fato/Zero acts as a prequel to Shirou's adventures. This time Kiritugu Emiya participates in the fourth war of the Holy Grail. Unlike the innocent Shirou, Kiritugu has a remarkable advantage as a world-famous magician killer. He also receives the support of the Einzbern family. This anime serves as an adaptation of light novels Fate/Zero. Unlike the main series, "Fate/Zero" has a profoundly deeper approach to the complexity of the Holy Grail War. In addition to his stellar animations, his exploration of the themes of sacrifice and ambition deserved the plausion of spectators and critics. Fate/Zero serves as a third piece of media to match the main story   Fate/stay night   and its spinoffs. After Fate/Zero, fans can also choose to play the sequel /stay night, empty /atarassia. 6 Fate/Apocrypha (Anime, 2017) What if the War of the Holy Grail followed the conventional definition of war? The story takes place 60 years after the Third War of the Holy Grail, where the clandestares war on the Wizard of the Association. In this new Great War of the Grail, black and red teamsTo the above-mentioned factions) are made up of pairs of master-servants who want nothing more than their side to become the victor. And as in the events of the city of Fuyuki, the Holy Grail War isn't always as simple as it sounds. Unlike the night / stay series, the destiny / Apocrypha   takes place in an alternate chronology. Given its oldest premise, fans who appreciate historical fiction will adore the servants and general narrative in this anime. Similarly, the spectators will worship the separate actions of the story / Apocripa  , and the two sets of servants who each have their own abilities, personalities and aspirations. This is the perfect start to a renewed awakening in . . . Stay Night Spinoffs. Events of fate / extras Last Encore is foggy, and this is by intention. In this anime, Hakuno Kishinami wakes up in a strange world accompanied only by a servant. With no memory of her past, she somehow apparently has to win the Holy Grail War and hopefully regain her identity in the process. As with the series NOTH-LINELINE / STAY NOTH-SERIES, it is Fate / Extra Ultimate Encore also awards a game - this time, the destiny / extra. Fans will appreciate the latest Encore   for being a loose adaptation of the game. This means they can play the game and watch the anime in any order. In addition, fans of Isekai will also love the hard Encore   for its kind-moon on the game "Inescapable VR game"    Genre. In the same way, some of its terminologies and concepts become relevant to the great order. 4 Fate / Grand Order: First Order (movie, 2016) Unaware of the world at large, the Chaldea Security Organization relies on the analysis of various experts to determine potential extinction events to threaten humanity. Familiar, their initial 2015 forecast predicts security for the next century. However, the verdict suddenly heralds the end of the world in 2016. Without any apparent cause, Chaldea knows only one link - the events of the fifth Holy Grail War of 2004, the setting of destiny / overnight stay. In turn, Chaldea announced the night. A great order: to change the past and restore the future. To do this, protagonist Fujimaru Ritsuka - A new take on Chaldea - and the mysterious Kyrieleight of the mash must go back in time.
