Compress Merge Capture Websites Archive creation Archive Archive Convert DOCX is a XML-based text processing file developed by Microsoft. DOCX files are different from DOC files while DOCX files store data in separate compressed files and folders. Previous versions of Microsoft Office (before Office 2007) do not support DOCX files because DOCX is based on XML in which previous versions save the DOC file as a single binary file. CloudConnevert is your Swiss army knife for file conversions. We support almost all audio formats, video, documents, ebooks, archive, image, spreadsheet and presentation formats. In addition, you can use our online tool without downloading any software. CloudConvert was reliable by our users and customers from its foundation in 2012. Nobody except you ever access your files. We earn money by selling access to our API, not selling your data. Read more about this in our privacy policy. In addition to using Open Source software under the hood, we collaborate with various software providers to provide the best possible results. Most conversion types can be adjusted to your needs as the quality setting and many other options. Our API allows customized integrations with your app. You only pay for what you actually use, and there are enormous discounts for high-volume customers. We provide many useful functions such as the integration of AMAZON S3 complete. Check the API documentation.
