Next, we checked the morphological changes and presence of debris. Out of the five districts (Bandarban, Chittagong, Cox's Bazar, Khagrachari, and Rangamati), most (55%) of the landslides occurred in the Chittagong and Rangamati districts. An Integrated Approach to map landslides in Chittagong Hilly Areas, Bangladesh, using Google Earth and field mapping. Landslide susceptibility mapping using frequency ratio, logistic regression, artificial neural networks, and their comparison a case study for Kat landslides. Newspaper reports (1980-2017), records of the Disaster Management Department of the People's Republic of Bangladesh, and the Roads and Highways Department provided the landslide data of landslides that caused casualties and damage to roads. The damage intensity of 271 landslides was not determined. Area Number Area of landslides Number of Decimal Places = 0. Triggers_Text Triggers of landslides Table 2.
