Rise of kingdoms commanders combo guide 2020 list printable

You can unlock these skills by improving the commander's star. other legendary commanders require certain events such as the most powerful governor event, fortune wheel, expedition (aethelflaed,) or payment methods (minemoto no yoshitsune or hannibal boat) to get. the commander roles and the riser of the realms, by updating a third star, our commander will automatically allow us to match him with another, we call this "commander pairing," is the main mechanism of the commanders. the level of secondary command does not determine the maximum capacity of the troops. sum up on the rise of the kingdoms. if you want to battle or gather resources, you have to have at least one commander, who runs your army troops. Experience books are the most comfortable method to increase the experience to our commanders, however, the easiest and free method is to kill guardians in holy sites, provide a lot of experience that will be of great help. each commander has three special skills that have so specialties. tips to develop the best specialization for our commanders if you are new to the game and have no experience with any other video game specialization system, I recommend that you review each of our commanders separately before embarking on this adventure, within each profile you will find a detailed guide of recommended talents and specializations, each of these talents improves the effectiveness of our commander and troops, either by hunting barbarians, destroying barbaric strengths or defeating the leaders of events in rise of kingdoms, spread active joto skills after primary commander casting skills. do not waste stars in the commanders you will not use at the beginning of the game, especially the legendary stars are moreto get unlike the rest, first decide which commander will be worth your effort and then use your arsenal of items to increase your power.Benefits don't work. These skills are progressive through a sculpture system that improves with each level. Epic commanders Epic commanders are pretty strong commanders. Versatility: as its name says "Versatility" is a varied speciality of improvements and benefits for all types of units and game forms both PVP and PVE, is the least used in the promotion of kingdoms and as part of our guide. You can say that it is not recommended for any commander, only access the following 2 specializations before this. They're in the weakest link in the chain. The meeting, the infantry, the cavalry, the archer, the conquest and the garrison are unique specializations in Rise of Kingdoms, his name tells us what is the innate talent of our commander or his principal ability as leader. In multiple commanders we can use an exquisite variety of talents, not only should we focus on a single specialization or seek to develop one of these to the maximum. Then the different types of specializations and an explanation of their use: Archer: this specialization is guided to the commanders who use archer skills and their purpose in the game is to fight or defend, each of the talents in this specialization only develops archer units under the command of their commander. The talented trees of the commanders are built on the basis of these three specialties. 1 i i u = 1 skill, 2 a i i e = 2 skills, 3 i i e = 3 skills and so on. Garrison: Only the powerful commanders able to defend any garrison until the last of their men have this strong specialization. Being F2P players: concentrate all your golden sculptures on a single commander until you get your ultimate "Expertise" skill, so little by little. Skill: one of the most widely used specializations in Rise of Kingdoms thanks to oyopa oyopa .etnelecx se EVP y PVP sallatab sal ne sotnelat sus ed dadivitecfe al .ozAad ed dadililbah royam y ari ed n'Aicarenegar adip|A us ed somimr©At ne setnadnamoc sol a sarojem sethetop ragroto ed soigelivirp .srednammoc eseht fo pihrsedael eht rednu stinu eht ot stnemevorpni tnerefd narq liiw tnelat hcae .noitazilaiceps siht evah liiw ylavac gnidael ni strepxe era olhw srednammoc yhoO ytilibM .noitazilaiceps siht evah liiw ylisae dna ylesicerp erom stinu lartuen gnitaeefd fo tfig eht htiw srednammoc .gnipeekecaeP . Stars and levels as part of all these series of talents and skills, we need to increase the experience of our commander to obtain each of these improvements. Conquest: a specialization purely for PVP and attack precisely in garrisons. The variety of talents that the game gives us is excellent and we can create it for our liking. As we said, each commander has 3 specializations of different types, they provide a series of talents. Integration: Specialization with a variety of talents for all types of units, is one of the least used in the rise of the kingdoms, since most of the commanders who have this specialization are experts "collecting" or "although it remains an à Drive of diverse talents. Each of the levels of our commander gives a point of talent, in turn increases the ability of these troops. What are the commanders? They are differ from getting, especially if they are players of F2P, although not impossible. They are varied in terms of skills and talents, but they are not recommended for almost any main task of the game, the use of these is only exclusive if we decide to use them in some work, however, we must keep in mind that our best option will not be. Most of the tanks commanders have this group of talents ideal to increase their robustness and strength in any battle. Attack: strong commanders and Powerful within Rise of Kingdoms have this specialization granted by multiple benefits for any type of unit, regardless of its own, each of its talents offers an offensive game, capable of causing a great impact on PVP battles. These are ostle for certain tasks in the game, such as agriculture, but they are not good to fight, defend and some others Cavalry: the commanders able to lead the cavalry will carry this specialization as part of their strength, each of the talents will give powerful upgrades to the lower unitsAvast of the hurbbaamimam yvon | Bartuant white yardy?
